

ITHUTENG HOME-BASED CARE

Ithuteng Home Based Care is a non-profit organization that was created in 2000, and that operates in Pella, under Moses Kotane Municipality. The organisation's main activities are centered on providing care and support to terminally and chronically ill patients in their community, therefore promoting a healthy diet and habits.

The organisation plans to extend its vegetable garden production to help its current 800 beneficiaries that include; 327 orphans, HIV/AIDS and also TB patients.

Transport and communication with surrounding villages/areas are some of the many other problems Ithuteng Home Based Care is faced with; in addition the increasing rate of HIV/AIDS in the region makes it difficult to cover many areas as wished.

Overall Objective

Improved access to water and nutrition of orphans

Immediate Objectives

- Install a borehole
- Install irrigation system
- Grow organic vegetables
