

LETHABO WATER AND SANITATION

Lethabo Water and Sanitation is based in the Mafikeng area and operates within the Mafikeng Local Municipality.

The project's activities are focused on awareness raising and capacity building in water usage and conservation. Furthermore, awareness raising and capacity building are also carried out on environmental preservation.

Communities are the target market, and the project has identified a total of 560000 people across the 28 wards within the North West province.

The project has also involved stakeholders that include; Tribal Authorities, the Department of Education, the Department of Health, the Mafikeng Local Municipality, Ngaka Modiri Molema District Municipality and ward councilors.

Overall Objective

Awareness around clean water and sanitation, health & hygiene

Long-Term Objective

Improve health and environment of the communities

Immediate Objectives

Survey of static/demographic of households in the area;

Recruitment and registration of CHC club members;

Awareness campaign for water conservation and water borne diseases;

Training session on different water borne diseases and sanitation.
