

LETSWAANA PROJECT

Letswaana Project is a community-based natural resource management project located in Saulsport , under Moses Kotane Local Municipality. The project was started in 2006, and currently counts 12 employees. Main activities cover; the establishment of a nursery, production of fields for medicinal plants and traditional herbs, as well as marketing and distribution. The project hopes to establish a traditional pharmacy in future.

Overall Objective

Improved water supply, irrigation systems and promoted use of traditional medicine

Immediate Objectives

- Install a borehole
- Install irrigation system
- Grow organic vegetables
