

NTSHA PEU FARMERS

Ntsha Peu Farmers is located in Mmamogaleskraal, under the Madibeng Municipality. The project was started by two family members in 2004, under the name Shandukani Farming.

The project is primarily involved in farming, and the manufacturing of craft products, and owns over 17 hectares of land. Access to water is not easy, and a water pump has been inserted but cannot be used because of a lack of electricity, they are not using it. In addition, some of the irrigation systems/ tools have been vandalized and need to be repaired.

The project supports local community, and works with the Kleinvontel Middle School, and orphans.

Tremendous support has been received from the Land Bank, and the Department of Agriculture, Conservation and Environment.

Overall Objective

Improved water supply , irrigation and livelihoods

Long-Term Objective

Selling of vegetables

Immediate Objectives

Repairing of borehole

Connection of irrigation system

Purchasing of tools and fertilizer

Land preparation

Planting of vegetables
