

RETLADIRA COMMUNITY VEGETABLE GARDEN

Retladira Community Vegetable Garden is a community-based project based in Lerome, North of Rustenburg under Moses Kotane Municipality.

The project was established by a group of 22 men, women and young people from different churches and community-based organizations. Its area of focus is to assist the community with self help schemes as a response to poverty and unemployment prevailing in the community. The creation of a sustainable vegetable garden was a solution to help provide adequate and regular supply of vegetables to the community.

Partnerships have been established with local churches, Bakgatla Ba Kgafela Tribal Council, North West Department of Agriculture, as well as the Moses Kotane District Municipality.

Overall Objective

Improves access to water, irrigation system and livelihoods

Long-Term Objectives

Sell vegetables
Obtain organic certificate

Immediate Objectives
