

Ebenhaeser Water Awareness, Tap & Leak Repair

IWRM Objectives – Water use efficiency, water awareness, empowerment & capacity building

The Ebenhaeser Water Awareness Tap & Leak Repair project aimed to heighten the awareness in the community of water quality and efficient resource use.

The project leader participated in the first phase of IWRM, obtaining training as a Water Forum Champion / Mentor and obtained seed funding to kick-start a project on water awareness in Ebenhaeser.

IWRM budget allocated was R174 336 and the budget spent in this project was R 48 552 with most of the budget used on labour, awareness materials and meeting venues.
