

Vanrhynsdorp Water User Association

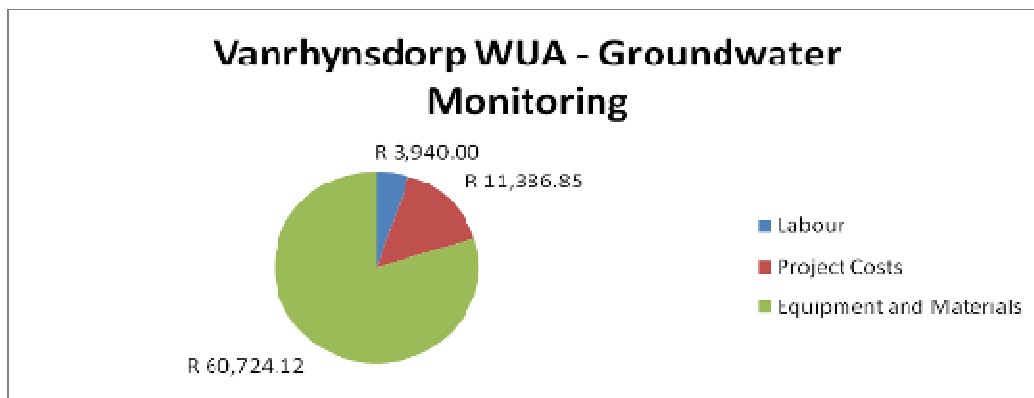

IWRM Objectives – Groundwater monitoring, support functioning of water user association

The Vanrhynsdorp Water User Association successfully applied to DWA IWRM to fund a groundwater monitoring programme, and recently asked for assistance with regard to clearing alien invasive plant species along the Troe Troe river.

The WUA participated in the IWRM Quarterly Project Monitoring Group meetings and various capacity building initiatives, notably the IWRM Groundwater Training for Pump Operators (based on the DWAF NORAD training materials).

Financial Information for Vanrhynsdorp Water User Association (WV10)

The Vanrhynsdorp WUA - Groundwater Monitoring was awarded a contract named IWRMII-WUA-OD-WV10-002 in 2008 to the value of R122,000.00. R76,050.97 was spent in the given contract period and the project closed at the end of August 2009.

Of the budget allocated to this group, R60,724.12 was spent on materials and equipment to build the operations, R3,940.00 was allocated to wages and payments for work done on project tasks, and R11,386.85 was claimed to support the project management and administration tasks undertaken by the group.
